

# About EyeCare Partners

## How We Elevate Eye Care

**We are the nation's leading clinically-integrated eye care network.**

EyeCare Partners is a united and growing clinically-integrated partnership of optometry offices, ophthalmology clinics and surgery centers in a partnership that is seamless for our patients.

**We are physician-led.**

We believe in clinical and medical leadership. We're unique in having a Medical Executive Board of practicing doctors guiding and informing strategic decisions.

**We're igniting a culture of innovation and continuous learning.**

Through the EyeCare Partners Innovation Center, we're using our expansive data and expertise to pursue health and improve patient outcomes. With more than 1,000 providers across the country, we have an unmatched wealth of data and expertise to draw upon.

**We're transforming the delivery of eye care.**

EyeCare Partners is advocating for preventative care and integrating primary and specialty care for a more seamless patient experience.

## Medical Executive Board

The Medical Executive Board is unique in the eye care industry. Priority areas include advocacy, technology, practice operations, compliance, research, recruitment and development. Nearly 100 ECP doctors currently participate on committees.

### Doctors at the Heart of Decision Making

We believe in clinical and medical leadership. The physicians on the Medical Executive Board give guidance to our Senior Management and Corporate Board.

**The Medical Executive Board is physician leadership that:**

- Provides guidance informing business decisions.
- Establishes best practices to ensure that patients receive the highest quality of medical care.

- Helps define and support the careers of physicians and staff.
- Empowers internal leadership, productivity, ongoing education, efficiency and research.
- Serves as advocates in governmental bodies and professional societies.

## EyeCare Partners Innovation Center

The Innovation Center focuses on three pillars: quality, research and education. The Innovation Center will put our data to work to pursue the future of eye health through practical, life-changing innovations. We also offer providers across every optometric and ophthalmic specialty the opportunity to pursue research alongside their clinical practice.

### Vision

To be the nation's leading provider of clinically-integrated eye care.

### Mission

**Enhance vision**  
We are dedicated to helping people see better. We work to help each person maximize the potential for his or her vision.

**Advance eye care**  
We do this through our doctor-led, integrated network of care, and through our clinical research and industry advocacy.

**Improve lives**  
We believe that when people see better, they also feel better and live better.

### Values

#### Clinical excellence

We are always striving to create better, safer, and more efficient care to deliver the best patient experience.

#### Personalized patient focus

We take the time to understand what makes each and every patient different.

#### Outstanding service

We treat everyone with respect to provide great service – to each other and our patients.

#### Inclusive culture

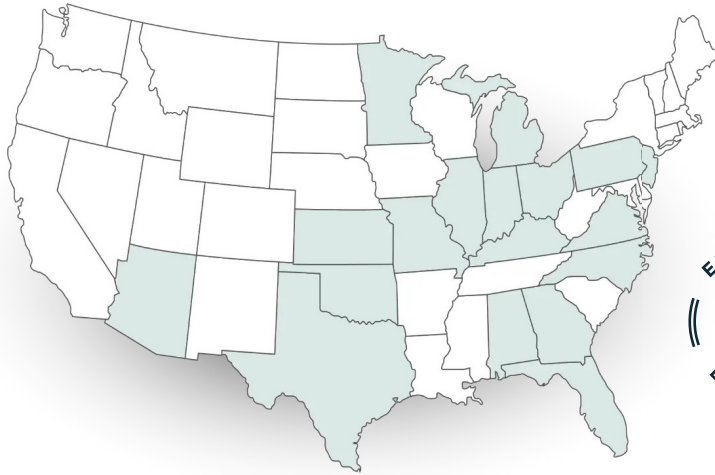

We foster an environment where everyone can be their true and authentic selves.

#### Collaborative innovation

We work together to find new ways to advance how we care for patients.
